ava Project: Number Series Aptitude Game

Project Idea

The program shows a number series question to the user.

The user must guess the next number in the series.

Example:

2 4 6 8 ?

The player enters the answer.

If correct → Score increases.

If wrong → Show correct answer.

The program will contain multiple questions using arrays.

Example Output:

=== NUMBER SERIES GAME ===

Find the next number in the series

Question 1

2 4 6 8 ?

Enter your answer: 10

Correct Answer!

Question 2

3 6 9 12 ?

Enter your answer: 15

Correct Answer!

CODE:

```
package myproject;
import java.util.Scanner;
public class NumberSeriesGame{
public static void main(String[] args) {
Scanner sc = new Scanner(System.in);
int score 0;
System.out.println("=== NUMBER SERIES GAME ===");
System.out.println("Find the next number in the series\n");
```

```
System.out.println("Question 1");
System.out.println("2 4 6 8 ?");
System.out.print("Enter your answer: ");
int ans1 = sc.nextInt();
if (ans1 10) {
System.out.println("Correct Answer!\n");
score += 10;
} else {
}
System.out.println("Wrong Answer! Correct answer is 10\n");
System.out.println("Question 2")
System.out.println("3 6 9 12 ?");
System.out.print("Enter your answer: ");
int ans2 = sc.nextInt();
if (ans2= 15) {

System.out.println("Correct Answer!\n");
score += 10;
} else (
}
System.out.println("Wrong Answer! Correct answer is 15\n");
System.out.println("Game Over");
System.out.println("Your Score: + score);
sc.close();
}
}
```
